- ③ 2 × USB 2.0 port

- ④ 1 × RJ45 E1hernet connection for 10/100 Mbps
- ⑤ VGA connection
- ⑥ COM port for RS232 connection

Using the desk docking

Inserting the IPC

Hold the sides of the IPC with two hands and align the bottom of the IPC into the docking connector of desk docking.

Note

Make sure the IPC is aligned with the desk docking. Reposition the IPC if it moves around.

Removing the IPC

Lift the tablet straight up from the desk docking to remove the IPC.

Powering on the desk docking

Note

Use the original power adapter of the IPC. The desk docking does not provide a separate power adapter.

Connect the power adapter of the IPC to the power port of desk docking directly. The desk docking's input/output expansion functions will only work if power supply is connected.

Display mode

Note

The display settings are automatically saved for future use.

Display Mode	Description
Extend Mode (Default)	This mode is recommended when operating tablet with keyboard or mouse device.
Mirror Mode	This mode is recommended when operating the tablet with touch screen.
