Package content

Scope of delivery:

- Hand strap × 1
- M3x8 flat head screw × 6

Design of product

Product overview

Using hand strap

Requirements

- A T10 screwdriver

Procedure

To install the hand strap on the tablet, take the following steps:

1. Place the tablet face down carefully on a stable and flat surface, for example, on the desktop.
2. Unscrew four screws on the corners of the tablet with a T10 screwdriver.

3. Align four rings on the hand straps to screw holes on the tablet.

4. Insert four M3x8 flat head screws and tighten them.
