Design of product

Product overview

Adjustable shoulder strap length: 85 cm - 165 cm.

Using shoulder strap

Requirements

- A T10 screwdriver

Procedure

To install the shoulder strap on the tablet, take the following steps:

1. Place the tablet face down carefully on a stable and flat surface, for example, on the desktop.
2. Unscrew the marked four screws on the corners of the tablet with a T10 screwdriver.

3. Align two attachment rings to two screw holes on the lower side or upper side of the tablet.
4. Insert two M3x8 flat head screws and tighten them.

5. Hook the attachment clasps on the shoulder strap to attachment rings.
