

# RS PRO

Simplifying sourcing, ensuring unsurpassed value and efficiency. The RS PRO seal of approval is your assurance of professional quality, a guarantee that products and components are rigorously tested, inspected and audited to exacting standards.

**RS PRO is the smart choice for our customers.**

## FOOD & BEVERAGE

# PNEUMATICS

RS PRO offers a wide range of pneumatic components made of stainless steel.

From hoses to quick exhaust valves, from couplings to blowguns.

## Main applications

- Compressed air / Pneumatic automation
- Industrial water circuits
- Inert gases, steam, vacuums
- Fluids and heating systems

## Advantages

- Withstand heavy-duty use
- Compatible with all fluids
- Resistant to surface rust and oxidation

## Main features

- **Durable stainless steel body**
- **Ideal for high corrosion environments**

# ENCLOSURES

RS PRO high-quality stainless-steel wall boxes and high IP rated accessories are the perfect choice for any needs in harsh environments.

## Main applications

- Machine control panels
- Electrical panels
- Dust and moisture applications
- Sensitive equipment protection

## Advantages

- Double lipped edge to ensure higher strength
- Ease of installation and use
- Removable door to easy access and operations

## Main features

- High stainless steel grade available (316L)
- High IP protection (IP69K)
- Lockable

# PPE (PERSONAL PROTECTIVE EQUIPMENT)

RS PRO offers a wide range of personal protective equipment. PPE becomes a key factor whenever people have to work in dangerous environments or they need to prevent human contamination.

## Main applications

- Food processing
- Noisy environments
- Clean rooms

## Advantages

- Efficient body protection (hand, head, overall)
- Human contamination prevention
- Work safely in any environment

## Main features

- Face masks with various protection grades
- Full body coveralls
- Food safe disposable gloves

# TEMPERATURE MEASUREMENT

Temperature measurement is critical within the industry. A small temperature variation could cause the failure of the entire production batch.

RS PRO offers many choices to keep temperature under control – from IR thermometers to temperature sensitive labels.

## Main applications

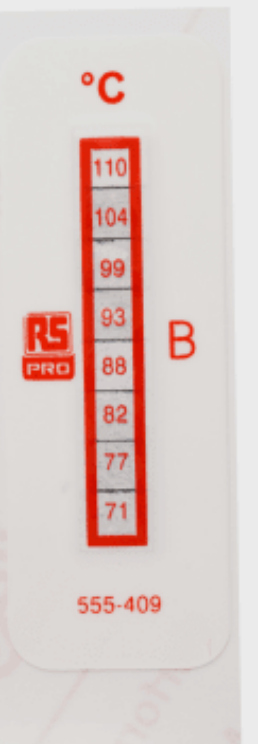

- Food processing
- Process control

## Advantages

- IR thermometers detect temperature without contact preventing contamination
- Temperature sensitive labels are easy to use and cost effective

## Main features

- Wide range of temperature measurement
- Different ways of measuring to suit every need
