

# TKSA 31

## Shaft alignment tool

NOT FOUND

The TKSA 31 has an ergonomic display unit with touch screen which makes the instrument very easy to use. The built-in machine library helps storing alignment reports for multiple machines. Large sized laser detectors in the measuring heads reduce the need for pre-alignments. The embedded soft foot tool helps establish the foundation for a successful alignment. Additional functions are live view and automatic measurement.

- Easy measurements with well-known three position measurement method (9-12-3 o'clock) with additional positioning flexibility of 40° around each measurement position.
- Focus on standard alignment process results in high affordability and effective shaft alignments.
- "Automatic measurement" enables hands-free measurements by automatic detection of the right measurement position.
- Automatic reports are created after each alignment and stored in the machine library. All reports can be exported as pdf.

## Overview

### Properties

Battery	Measuring units: no batteries; Display unit: rechargeable 5000 mAh LiPo battery
Certifications	Calibration certificate (2 years validity)
Operating temperature range	0 to 45 °C
Recommended applications	Horizontal shafts; Soft foot
