## technical information

<b>RoHS compliant:</b>	Yes
<b>Temperature range:</b>	-4°F (-20°C) to + 140°F (+60°C)
<b>Material:</b>	Polycarbonate and Brass Steel/Nickel Plated
<b>Packaging:</b>	Five units per package

## key features and benefits

<b>Tamper Resistant</b>	Device will block connections from unauthorized access, protecting sensitive data and reducing the risk of transferring malware
<b>Ease of use</b>	Installs with a single push
<b>Compact design</b>	Mounts flush with the opening and does not interfere with adjoining connections
<b>Compatibility</b>	Compliant with USB Type A ports
<b>Master Key</b>	Unique locking mechanism can only be accessed with a special master key

## applications

USB Type A ports have become a convenient way to charge and operate multiple devices. It is also an easy way to transfer malware into a network to access or steal sensitive data. Panduit SmartKeeper USB Type A Blockout Device will block most USB Type A ports and can only be removed by using SmartKeeper Master Key.

This tamper resistant device provides an economical way to add a physical layer to secure USB Type A ports found in computers, switches or any other equipment, preventing unauthorized access and reducing the risk of intentional or unintentional damage to help save time and money associated with data security breaches, network downtime, infrastructure repair and hardware replacement.
