Reshaping
your
world.

BELTS ARE BETTER THAN BITS

Portable file belts are a faster and more cost-effective product choice than boron bits on spot welds and hem flanges. They also generate fewer sparks than cut-off wheels for easier work in more contained workspaces. The general design also allows them to fit into tight or intricate areas more readily to get the job done quickly. Use 40 and 60 grit for spot weld removal on steel followed by 80 and 120 for weld dressing and refinement.

QUALITY THAT PAYS™

The Saint-Gobain logo features a stylized graphic of three vertical bars of increasing height, colored blue, red, and orange, above the text 'SAINT-GOBAIN' in blue, sans-serif capital letters.

NORTON

SAINT-GOBAIN

**PORTABLE
FILE BELTS****Norton Rapid Prep**

Non-woven synthetic material bonded with a smear-resistant adhesive enables aggressive cutting action and quality finish while maintaining its non-loading feature.

SIZE	COLOR	PART #
1/2" x 18"		
Coarse	Brown	662610 55309
Medium	Maroon	662610 55310
Very Fine	Blue	662610 55311
Pkg/Case		1/24

**Norton Blaze R980P**

Advanced ceramic alumina grain with "supersize" grinding aid provides a cooler cut during use for improved part finish and integrity with longer belt life.
