## 1 Overview

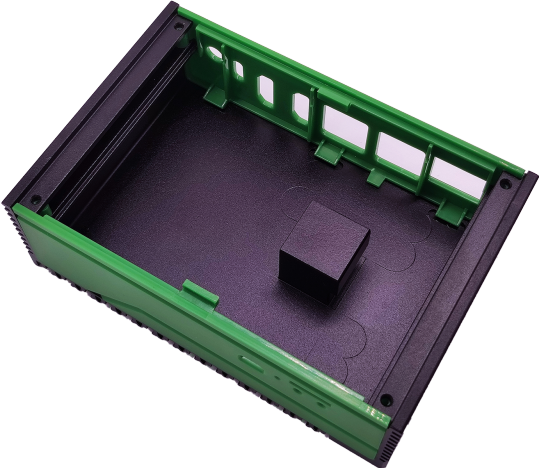

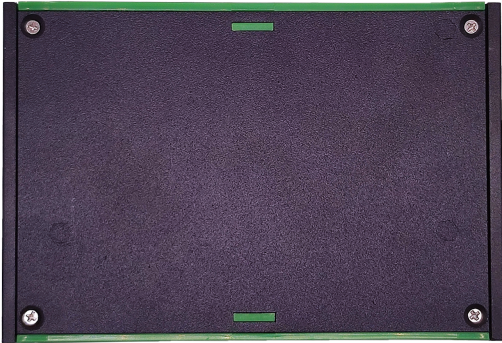

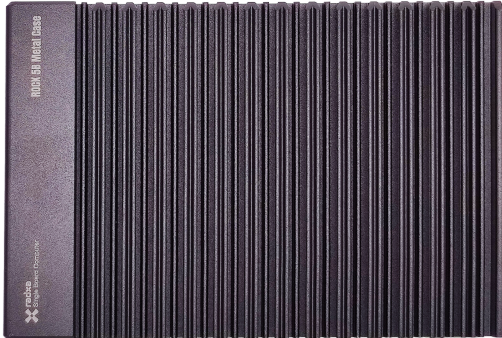

Radxa has designed a specially customized metal case for the ROCK 5 Model B single board computer. The case is sturdy and provides protection for the board while also allowing easy access to all the ROCK 5B's ports. It is made of aluminum, with plastic panel on both sides, and there are aluminum pillars specially designed for SOC heat dissipation inside the box. It also has cooling function which provides passive cooling to the board, ensuring that the ROCK 5B remains cool even under the most demanding conditions. This nifty case is the perfect solution for keeping your ROCK 5B running smoothly and efficiently.

## 2 Specification

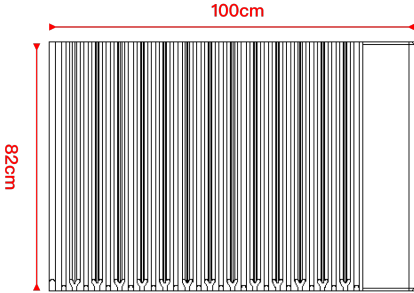

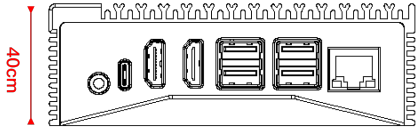

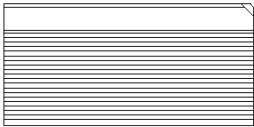

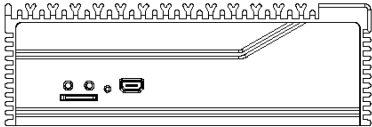

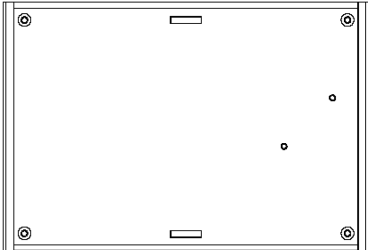

- Dimension: 120 x 82 x 40 unit mm.
- 1x Aluminum cooling top cover
- 1x Front plastic plate
- 1x Rear plastic plate
- 1x Bottom cover
- 4x KM2x8 screws for installing bottom cover
