MODEL BMK6, BMK7 & BMK7A - BASE MOUNT KIT FOR CUB4, CUB5 & DT8 UNITS
DESCRIPTION

The BMK6, BMK7 and BMK7A base mounts are designed for use with the CUB4, CUB5, and DT8 units. The BMK7 is large enough to accommodate a Micro-line Power Supply (MLPS) attached to a CUB4 or DT8. The BMK7A will accommodate a Micro-line Power Supply (MLPS) attached to a CUB5.

The wires can either be brought through the panel on which the unit is mounted, or through the hole(s) in the enclosure itself. Grommets are provided to insert in the hole(s) on the base mount (where applicable) when wires are routed through it. The grommets are in the accessory bag with each base mount unit, along with four nuts and bolts for mounting.
The base mounts are constructed of steel with a textured black finish.

DIMENSIONS In inches (mm)

BMK6 - OPEN BASE MOUNT KIT
(Without MLPS)

BMK7/BMK7A - CLOSED BASE MOUNT KIT
(With or Without MLPS)

| MODEL	A	B	C
BMK7	4.00 (101.50)	3.45 (87.63)	2.80 (71.12)
BMK7A	4.62 (117.35)	4.00 (101.50)	3.50 (88.90)

INSTALLATION

BMK6 - Open Base Mount

Before attaching the BMK6 to the panel or frame, it is recommended to wire and mount the unit to ensure good electrical connections. The following steps outline the most common sequence for installing a unit without an MLPS attached.

1. Install the grommet (provided in the accessory bag) in the hole in the base mount.
2. Assemble nut fastener and mounting screw onto both sides of the mounting clip. The tip of the screw should not project from the hole in mounting clip.
3. Slide the panel gasket over the rear of the unit to the back of the bezel. Then install the unit through the opening in the front of the base mount until the bezel flange makes contact.
4. Slide the mounting clip over the rear of the unit until the mounting clip is against the inside of the base mount. The mounting clip has latching features which engage into mating features on the unit's housing.
   Note: It is necessary to hold the unit in place when sliding the mounting clip into position.
5. Alternately tighten each screw to ensure uniform gasket compression.
6. Connect the necessary wires from the grommet to the unit.
7. Mount the base mount enclosure to the panel or frame as application requires. Four bolts and nuts are provided with the Base Mount Kit.
INSTALLATION

BMK7/BMK7A - Closed Base Mount

Before attaching the BMK7/BMK7A to the panel or frame, it is recommended to wire and mount the unit to ensure good electrical connections. The following steps outline the most common sequence for installing a unit with an MLPS attached.

1. Install the grommets (provided in the accessory bag) in the holes in the base mount.

2. Slide the panel gasket over the rear of the unit to the back of the bezel.

3. Remove the common and V+ screw terminals from the rear of the unit (save for later use), and replace them with the hex drive stand-offs with round washers (supplied with the MLPS).

4. Assemble nut fastener and mounting screw onto both sides of the mounting clip. The tip of the screw should not project from the hole in mounting clip.

5. Route the wires from the grommets, through the mounting clip, into the rear of the base mount and out the front.

6. Connect the wires necessary for the application to the unit.

7. Install the unit through the opening in the front of the base mount until the bezel flange makes contact.

8. Slide the mounting clip over the rear of the unit until the mounting clip is against the inside of the base mount. The mounting clip has latching features which engage into mating features on the unit's housing.

Note: It is necessary to hold the unit in place when sliding the mounting clip into position.

9. Alternately tighten each screw to ensure uniform gasket compression.

10. Connect AC power to the terminal block of the MLPS.
Note: Make sure the AC selector switch is set to the appropriate position before applying power to the unit.

11. Mount the MLPS and optional sensor wires needed to the stand-offs using the screw terminal from the unit with the supplied square washers.

12. Mount the base mount enclosure to the panel or frame as application requires. Four bolts and nuts are provided with the Base Mount Kit.

ORDERING INFORMATION

MODEL NO	DESCRIPTION	PART NUMBER
BMK	OPEN BASE MOUNT KIT	BMK60000
	CLOSED BASE MOUNT KIT (DT8, CUB4)	BMK70000
	CLOSED BASE MOUNT KIT (CUB5)	BMK7A000
For More information on Pricing, Enclosures & Panel Mount Kits refer to the RLC Catalog or contact your local RLC Distributor.
