

Cable Jacket Slitter & Stripping Tool

10005

Product Overview

Product Number: 10005

Use the Cable Jacket Slitter for quick and precise removal of insulation from round cables without nicking conductors. Unique lever and blade design allows ringing, longitudinal and spiral slitting of cable jackets. Cable holding bracket has integrated sharpened edge for removing insulation. Adjustable blade cutting depth; includes spare blade in the handle.

- Strips to a maximum OD of 0.18"-1.0" (4.5mm to 25mm) OD.
- Blade adjusts for jacket thickness to 0.125" (4.5mm).
- Use with single conductor stranded and solid conductor cable.
