3M Dust Remover

Dry spray removes dust, lint and dirt from home and office items!

DIRECTIONS: Point nozzle away from yourself and others. Remove small tab on top of actuator. Insert straw firmly. Position approximately 2" from item to be dusted. Always hold can upright to avoid spraying liquid. Pull trigger in a series of short blasts. Do not shake or turn upside down.

WARNING:

KEEP OUT OF REACH OF CHILDREN.

• **Do not abuse.** This product is not canned air. Abuse by inhaling contents may cause INSTANT DEATH or injury. For more information on inhalant abuse, visit www.3Mdustremover.com/advisory.

• **Possible reactions:** Use may cause nose and throat irritation, dizziness, headache, nausea or unconsciousness.

• **Sensitive users:** People with asthma or sensitivity to odors or taste may react to contents.

• **Avoid spraying liquid.** Always hold container upright to avoid spraying liquid. Liquid sprayed on skin or in eyes may cause frostbite. Dried liquid spray may leave a bitter residue, resulting in a bad taste if transferred to the mouth. To remove dried spray, wipe with a cloth dampened with a 50/50 mix of isopropyl alcohol and water.

• **Vapors are FLAMMABLE** and may ignite. Do not use while smoking or near open flames, pilot lights, spark-producing equipment or other ignition sources. Always use with adequate ventilation.

• **Avoid heat – contents under pressure.** Container may BURST and become a PROJECTILE when hot. Store in a cool place, at temperatures below 120°F (49°C). Do not expose to heat or prolonged sunlight. Do not store in a vehicle or in any area where product may become hot. Do not puncture or burn container, even when empty.

Contains: 1,1-difluoroethane

Suggested First Aid: **Eye Contact:** Flush eyes with large amounts of water. If irritation persists, get medical attention. **Skin Contact:** Wash affected area with soap and water. If irritation occurs, get medical attention. **Inhalation:** Move to fresh air. Get immediate medical attention. If Swallowed: No need for first aid is anticipated.

Note to Physicians: Exposure may increase myocardial irritability. Do not administer sympathomimetic drugs unless absolutely necessary.
