Overview Documents Videos

3M™ Corded Foam Earplugs seal the ear canal with soft, polyurethane foam for noise reduction and reliable hearing protection. The tapered earplugs are easy to roll down and fit and are engineered for all-day comfort. Soft, hypoallergenic polyurethane foam and a tapered design help provide a comfortable noise-reducing seal in the ear canal. The smooth, dirt-resistant surface helps keep the earplugs clean for good hygiene.

These soft polyurethane foam earplugs have a Noise Reduction Rating (NRR) of 29 dB and are test compatible with the 3M™ E-A-Rfit™ Validation System.

Not only is noise present in our daily routines and recreational activities, but millions of Americans work in hazardous noise on a daily basis. Estimates from the National Institutes of Health suggest that hearing loss afflicts 28 million Americans. About one third of those cases are at least partially attributable to noise. Hearing loss due to noise is almost entirely preventable by judicious use of hearing protection.

*The NRR may overestimate the hearing protection provided during typical use. 3M recommends reducing the NRR by 50% for estimating the amount of noise reduction provided.

3M™ is Leading the Advancement of Hearing Conservation™.

Specifications

Brand	3M™
Color	Orange
Cord Type	Cloth
Hearing Protection Style	Roll Down Foam
Material	Polyurethane
Noise Reduction Rating	29 Decibel
Packaging	Poly bag
Product Code	1110
Product Type	Earplugs
Recommended Application	Assembly, Blasting, Cleaning, Demolition, Electrical, Facility Maintenance, Grinding, Machine Operations, Painting, Sanding, Welding

Recommended Industry	Automotive, Construction, Food and Beverage Manufacturing, General Manufacturing, Military Maintenance, Repair and Operation (MRO), Mining, Oil & Gas, Transportation
Shape	Tapered
Size	One Size Fits Most
