### **Bussmann**®

## **Fusetron®** Dual-Element, Time-Delay Fuses Class RK5 – 250 Volt

FRN-R 1/10-60A

#### Catalog Symbol: FRN-R

Current-Limiting Dual-Element, Time-Delay – 10 seconds (minimum) at 500% rated current

Ampere Rating: 1/10 to 60 Amperes Voltage Rating: 250 Volts AC (or less) Interrupting Rating: 200,000A RMS Sym. DC Ratings: 20,000 AIC @ 125 VDC

#### Agency Approvals:

UL Listed, Std. 248-12, Class RK-5, Guide JDDZ, File E4273 CSA Certified, C22.2 No. 248.12, Class 1422-01, File 53787

#### **Dimensional Data**

# General Information:

- Provides motor overload, ground fault and short-circuit protection.
- Helps protect motors against burnout from overloads.
- Helps protect motors against burnout from single phasing on three phase systems.
- Simplifies and improves blackout prevention (selective coordination).
- Dual-element fuses can be applied in circuits subject to temporary motor overloads and surge currents to provide both high performance short-circuit and overload protection.
- The overload element provides protection against low level overcurrent of overloads and will hold an overload which is five times greater than the ampere rating of the fuse for a minimum of ten seconds.
