### Base Data

**Local Order Number** MK9-221

**Type** MK9-221

- Features and Benefits**
- An easy to read display speeds adjustment and verification.
  - Thumb tab on larger tension knob for easy adjustment.
  - On the Mark 7, a larger knob sets the three variable tension levels (minimum, intermediate, and standard). The smaller knob fine tunes within the tension range.
  - The larger knob on the Mark 9 sets to two variable tension levels (standard and heavy). The smaller knob fine tunes the tension setting.
  - Housings are manufactured from a high impact, glass reinforced nylon.
  - A double wall linkage adds more strength.
  - Tough chromium steel components ensure longevity.
  - MK7 & MK9 are military specified.
  - Single and dual lock-out features available for tensioning ranges.
  - Cable tie tension and cut-off tools reduce operator fatigue and speed assembly.
  - The Mark 7 features a one inch stroke, while the Mark 9 has a 5/8 inch stroke. Both reduce trigger cycles required to install cable ties.
  - Ergonomic design on both tools ideally fit the operator's hand. Removable padded hand grips further reduce impact to the hand.
  - Low friction bearing mechanisms reduce hand effort and provide a smooth stroke.
  - Extremely light, the Mark 7 weighs only 10 ounces. The Mark 9 weighs just 13 ounces.
  - Quick tension adjustability for flush cut-off.

**Product Description** Specifically developed for maximum ergonomic and performance values, the Mark 7 and Mark 9 series tools combine reduced hand effort and durable components to ensure efficient assembly and a longer life cycle. The Mark 7 tools are used with T18 through T50 series HellermannTyton cable ties. The Mark 9 tools can be used with nearly every HellermannTyton cable tie. Able to accommodate ties to .530" in width, the Mark 9 is used with HellermannTyton's T18\* series cable ties to the heavy duty ties, including the T250 series and EL-TY. High tension versions of both the Mark 9 and Mark 7 tools (MK9HT and MK7HT) offer the same design features as their standard counterparts but with higher cut-off tension capabilities. The Mark 9 and Mark 7 high tension tools both offer a 5/8" stroke.

**Short Description** Replacement blade for Mark 9 series tools.

### Product Dimensions

**Tension Setting Tools** Adjustable

### Logistics and Packaging

**Quantity Per** bag

**Package Quantity** 1

**Package Quantity (Metric)** 1

### Material and Specifications

**ROHS Compliant** Yes
