Quick Jump: Ultratorch Model UT-100Si-TC

A professional quality, self-igniting soldering iron, hot knife and flameless heat tool kit

- Kit contains UT-100Si Ultratorch®, three <u>Ultratip® soldering tips</u>, a hot air tip, heat shrink reflector, hot knife, wire cutter, needle nose pliers, coil of 60/40 solder, sponge and cap packed in a rugged plastic carrying case
- Butane powered for complete portability
- Multifunctional for versatility
- Adjustable control for temperatures up to 1202°F
- Features Ultratip® soldering tips with an oxygen-free copper base, ceramic catalyst and extra thick iron and chrome plating for longer tip life and higher thermal conductivity, perfect for today's lead-free solder
- Lighter in weight than competitive models, making it easy to hold and use over extended periods of time
- Carrying case keeps tools and accessories organized and has additional slots for storage of optional tip and Master Ultratane® Butane
- UL & GS/TUV Listed for user safety
- Optional tips and accessories available

ULTRATANE® BUTANE

Use Master Ultratane Butane for best performance. The only approved butane recommended to fuel all Master butane powered products.

Users should independently evaluate the suitability of the product for their application.

WARNING

The Department of Transportation Hazardous Material Regulations forbid carriage of butane or other flammable gas products on passenger aircraft. Do not pack this item or any other flammable gas item in any checked or carry-on baggage.
