Double 110 Blade-SurePunch® & SurePunch® Pro

Part number: 4591

Description

Double 110 cut only blade for SurePunch® & SurePunch® Pro PDTs.

Features

- Terminate & cut pairs into standard 110 jacks & panels with .150" spacing
- Works with Molex, Hubbell, Ortronics, Sprint, Hellerman-Tyton & other common keystone jacks. Check cross-reference for complete listing of comparable products.

Advantages

- Faster & cleaner network installations
- Terminates & cuts in a single punch using HI setting
- Reduce labor costs & make more margin on the job
- Works with any tool that accommodates twist-&-lock-style blades
