### Description

BP240V7RT3U is a special NON-EXPANDABLE external battery pack that's included as part of Tripp Lite's [SU6000RT3U](#) and [SU6000RT3UHV](#) UPS bundles. BP240V7RT3U has no daisychain throughput connector to enable the connection of more than one BP240V7RT3U to a UPS. You cannot connect more than one BP240V7RT3U to a single host UPS system. If you're planning on adding additional battery packs beyond the BP240V7RT3U that was originally included with your UPS, use [BP240V10RT3U](#) instead, since it's loaded with a daisychain throughput connector that allows multiple [BP240V10RT3U](#) external battery packs to be connected to the host UPS.

Tripp Lite recommends that you buy model [BP240V10RT3U](#) as the replacement for BP240V7RT3U units that have reached end of life.
