

EZ-Viking™ Crimp Tool

100544

Product Overview

Product Number: 100544

For Data Centers, Aerospace & Broadcast. The patented EZ-VIKING™ Crimp Tool was developed to meet the most demanding network performance. This single function professional crimp tool, is precision manufactured to the highest international standards and delivers the highest quality and consistent modular plug terminations available.

- Terminates EZ-RJ45® Cat 5e/6 regular & shielded (external or internal)
- Parallel action for precision crimping
- Optimizes termination of Cat 5e and Cat 6 shielded connectors
- High leverage ratchet action ensures full crimp cycle
- Highest quality/durability - minimum of 50,000 cycles
- Zero flex frame prevents torque loss during the crimping cycle
- Tool steel die provides 360 degree of connector support during crimp
- Flush trim on the EZ-RJ45® extended conductors
- Tool is factory set with a precise eccentric cam adjustment function to guarantee performance
- Safety release
- Made in Sweden
- For Data Centers, Aerospace & Broadcast

Application

- Data Centers
- Finance/Banking
- Government
- Military
- Medical
