POWER-COMBICON
Cable Housings

KGG-PC 4/...

3-5 positions, with straight cable connection
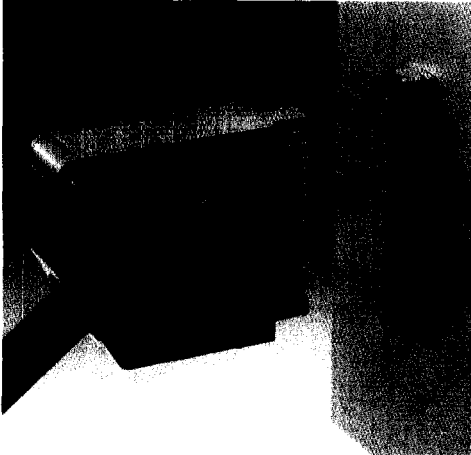

These ergonomically designed cable housings serve as strain relief for the conductors screwed to the plugs. Four versions are available:
- KGG-PC 4/... , 3-5 positions, with straight cable connection,
- KGG-PC 4/...-F, 3-5 positions, with straight cable connection and screw flange,
- KGS-PC 4/... , 6-12 positions, with angled cable connection and
- KGS-PC 4/...-F, 6-12 positions, with angled cable connection and screw flange.

The standard PC plug with screw connection can be used in all versions.

Strain relief for conductors of 4 to 16 mm Ø is provided by a clamp in the housing. Transparent labels and marker strips are included.
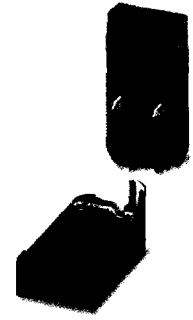

Several plugs can be aligned directly beside each other thanks to the cable routing. The half shell housings are screwed together securely.
