

Series WE02

3-Piece NPT Stainless Steel Ball Valve

Full Port, Vented Ball, Electric or Pneumatic Actuators

The Series WE02 incorporates a full port 3-piece SS ball valve for great flow rates with minimal pressure drop. The valve features a blowout proof stem for added safety, reinforced PTFE seats and seals for longer life, and a 316 SS (ASTM CF8M) ball for better performance. Actuators are direct mounted creating a compact assembly for tight spaces. Limit switches are able to be mounted directly to the valves allowing for remote position indication.

The Series WE02 can be configured with either an electric or pneumatic actuator. Electric actuators are available in weatherproof or explosion-proof, a variety of supply voltages and two-position or modulating control. Two-position actuators use the supply voltage to drive the valve open or closed, while the modulating actuator accepts a 4 to 20 mA input for valve positioning. Actuators feature thermal overload protection and permanently lubricated gear train.

SPECIFICATIONS

VALVE Service: Compatible liquids and gases. Body: 3-piece. Line Sizes: 1/2 to 3". End Connections: Female NPT. Pressure Limits: 28" Hg to 1000 psi (-0.7 to 69 bar) up to 250°F. Wetted Materials: Body and ball: 316 SS (CF8M); Stem: 316 SS; Seat: RTFE/PTFE; Seal, Washer, and Packing: PTFE. Temperature Limits: -20 to 392°F (-29 to 200°C) Other Materials: O-ring: Fluoroelastomer: Handle: 304 SS; Washer: 301 SS: Stem Nut, Locking Device, Gland Ring: 304 SS; Handle Sleeve: PVC ACTUATORS Pneumatic "DA" and "SR" Series

Type: DA series is double acting and SR series is spring return (rack and pinion). Normal Supply Pressure: DA: 40 to 115 psi (2.7 to 7.9 bar); SR: 80 psi (5.5 bar). Maximum Supply Pressure: 120 psi (8.6 bar). Air Connections: DA01: 1/8" female NPT; DA02 to DA05: 1/4" female NPT; SR02 to SR07: 1/4" female NPT. Housing Material: Anodized aluminum body and epoxy coated aluminum end caps.

Temperature Limits: -40 to 176°F (-40 to 80°C). Accessory Mounting: NAMUR

standard.

The pneumatic double acting actuator uses an air supply to drive the valve open and closed. The actuator has two supply ports, with one driving the valve open and the other driving the valve closed. Spring return pneumatic actuators use the air supply to open the valve, and internally loaded springs return the valve to the closed position. Also available is the SN solenoid valve to electrically switch the air supply pressure between the air supply ports for opening and closing the valve. Actuators are constructed of anodized and epoxy coated aluminum for years of corrosion free service.

FEATURES

- Capable of being configured to fit any application
- Limit switches can be mounted to manual valves for remote monitoring

Electric "TD" and "MD" Series Power Requirements: 110 VAC, 220 VAC, 24 VAC or 24 VDC (MD models not available in 24 VDC) Power Consumption: See instruction manual Cycle Time (per 90°): TD01: 4 s: MD01: 10 s; TD02 and MD02: 20 s; TD03 and MD03: 30 s. Duty Rating: 85%. Enclosure Rating: NEMA 4X (IP67). Housing Material: Powder coated aluminum Temperature Limits: -22 to 140°F (-30 to 60°C). Electrical Connection: 1/2" female NPT Modulating Input: 4 to 20 mA. Standard Features: Manual override, position indicator, and TD models come with two limit switches.

Electric "TI" and "MI" Series Power Requirements: 110 VAC. 220 VAC, 24 VAC or 24 VDC. Power Consumption: See instruction manual. Cycle Time (per 90°): See instruction manual. Duty Rating: See instruction manual. Enclosure Rating: NEMA 7, designed to meet hazardous locations: Class I, Group C & D; Class II, Group E, F & G; Division I & II. Housing Material: Powder coated aluminum. Temperature Limits: -40 to 140°F (-40 to 60°C). Electrical Connection: 1/2" female NPT Modulating Input: 4 to 20 mA. Standard Features: Position indicator

and two limit switches.
