Radius RA 2.92mm Male to 2.92mm Female Adapter Up To 40GHz

Radius RA 2.92mm male to 2.92mm female adapter part number SM3252 from Fairview Microwave is in-stock and ships same day. This Fairview 2.92mm to 2.92mm adapter has a male to female gender configuration. SM3252 2.92mm male to 2.92mm female adapter operates to 40 GHz. The 2.92mm connector mates mechanically with commercially available SMA and 3.5mm connectors. This low profile radius right angle 2.92mm adapter allows for easier connections in tight spaces. The Fairview Microwave RF adapter provides good VSWR of 1.5:1 maximum.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connnector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
