Ratchet Handles

1/2in Speed Wrench Ratchet (248-3104)

Innovative design enables operation as a standard reversible ratchet and a 90° angle Speedwrench, without removal from the work piece.

- 1/2in square drive
- Forward and reverse direction
- Ideal for use in confined spaces
- Swivel T-handle allows operation up to four times faster than a standard ratchet.
- Chrome Plated Vanadium Steel construction
- Removable gears for easy cleaning and lubrication
- Length: 295mm
