Datasheet

High Quality Ratchet Bit Brace

RS Stock number 537-782

Specification

Contents

A 3-position ratchet bit brace manufactured in chromed steel with a black plastic handle grip and a ball bearing track breast plate.

10mm Capacity with a 4-jaw chuck with retention springs.

Features

This jaw brace has a four-jaw chuck, which means that the bit is clamped by a very reliable mechanism with four jaws.

There is an integral ratchet to make drilling easier in confined spaces.
