

AC/DC Power Supplies

TPP 100 Series, 100 Watt

Features

- Highest power density encased 100 W power supply in 2" x 3" package
- ◆ 2 x MOPP Medical safety according to AAMI/ANSI ES 60601-1:2005(R) and IEC/EN 60601-1 3rd edition
- Ready to meet ErP directive, < 0.3 W no load power consumption
- ♦ Highest efficiency 91 to 92% across 10% - 100% load range
- Active power factor correction (>95)
- Protection class II prepared
- Operating up to 5000m altitude
- Adjustable output voltage
- 3-year product warranty

The TPP 100 Series of 100 Watt AC/DC power supplies feature a reinforced double I/O isolation system according to latest medical safety standards (60601-3 3rd edition, 2 x MOPP).

The excellent efficiency of up to 92% allows a high power density for the standard 2.0" x 3.0" packaging format. The full load operating temperature range is -25°C to +50°C while it goes up to 70°C with 50% load derating.

They come with an active power factor correction and the EMC characteristic is dedicated for applications in industrial and domestic fields.

High reliability is provided by use of industrial quality grade components and an excellent thermal management. It makes the products an ideal solution for medical devices and for demanding safety and space critical applications.
