Compressed Air Lockout

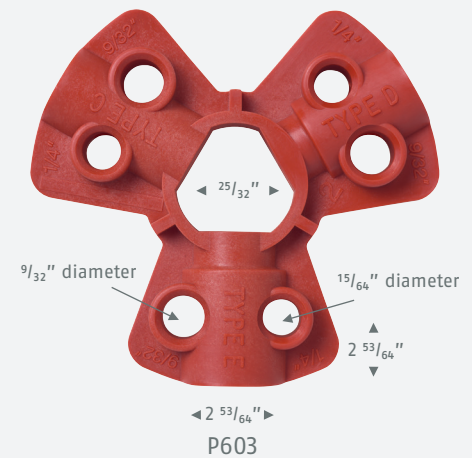

Devices for Any Application

Lockout devices and kits are an essential part of all safety lockout/tagout procedures. Paired with ABUS padlocks, these devices will ensure facilities meet OSHA requirements and protect employees from fatal accidents.

Key Features

- Made from fiber-glass reinforced nylon: long-lasting, robust and non-conductive
- 3 different connections for most common compressed air couplings with 19/32" outside diameter
- The hole in the middle can be used to attach and store the lockout device directly at the connection
- Holds 1 padlock with 1/4" and 1 padlock with 9/32" shackle diameter per connection
