Radio interference suppression filter, three-phase

HLD 110-500/8

Advantages

For enhanced requirements

Single-stage filter concept

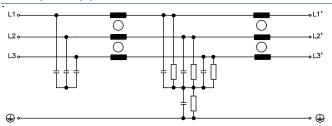

Efficient filter effect against line-bound interference emissions

Increase in the interference immunity of the connected consumer

Applications

Radio interference suppression filter for line-side interference suppression of single devices, frequency converters or as group interference suppression.

Sample application

Standards

Radio interference suppression filter complying with DIN EN 60939-2, UL 1283, CSA C22.2 No.8 $\,$

Approvals

UL 1283 5th edition, CSA 22.2 No 8

Radio interference suppression filter, three-phase **HLD 110-500/8**
