## RS Pro Black Conductive ESD-Safe Bag

RS Stock No: **550-088**

### Product Details

RS Pro black coloured conductive antistatic bag made of blow moulded LDPE with carbon, effectively avoids accumulation of electric charge on the bag and its contents. This light tight bag is suitable for storage of components whilst in an EPA. The bag protects the contents from damage of electromagnetic wave and static. This bag is heat sealed to offers medium level static protection.

### Features and Benefits

- Ideal packaging for tubes of ICs
- Black conductive bags made from blow moulded LDPE with carbon
- Light tight and effectively avoids accumulation of electric charge on the bag and its contents
- Suitable for storage of components whilst in an EPA
- Protects the contents from damage of electromagnetic wave and static
- Heat sealed and offers medium level static protection
- Film thickness of 75 micron

### Specifications:

Colour	Black
Material Properties	Conductive
Quantity Per Package	10
Width	203 mm
Height	254 mm
Film Thickness	75 micron
Humidity Rating	47.8%
Material	LDPE with Carbon
Standards Met	ESD S20.20; EN 61340-5-1
Surface Resistance	$10^4$ to $10^6 \Omega$
Temperature Rating	+22.1°C
