## Datasheet

### White Aluminium Grille, 237 x 237mm

RS Stock 185-4707

#### Dimensions

#### REVERSE BUTT FLANGES FOR HORIZONTAL & VERTICAL JOINTS

Louvres exceeding 1800mm in height are supplied in sections with reverse butting flanges drilled for site fixing on the FBL/WB only. FBL/NB require a plate to be fixed to the reverse butt flange as per detail.

#### VERTICAL SUPPORT

Louvres exceeding 1800mm in width can be supplied in sections with vertical support channels for alignment and site fixing if individual louvre face details are required.
