

Datasheet

Stock No: 415-6208

RS Pro Round Tube T-Connector, strut profile Type 2

Product Details

Short Swivel Tee

Short Swivel Tees enable variable corner joints between 85° and 235° to be made between matching size structural system tubing. A corner joint link requires a pair of tees.

Dimensions (mm)	
Tube Size Ref.	B
1	58
2	73
3	81

Note

'Dimension B' relates to the dimension shown on the corresponding line drawing, and should be used in conjunction with the structural system Tube Size Ref. quoted, specific to each stock no. indicated.

Staircase Fittings

The line drawing illustrates some typical applications of the fittings for the construction of staircase handrails.

For Tube Size Refs. 1, 2 and 3.

The 'selection guide' table links the alphabetical key in the illustration to the specific fittings (a typical stock number is also quoted).

Selection Guide		
Key	Fitting Description	Typical Stock No.
H	90° Elbow	286-3370
M	Rail Base Flange	286-3623
Q	Single Mesh Panel Clip	415-7037
S	Handrail bracket	286-3689
T	Single swivel combination	286-3522
U	Double swivel combination	286-3544
V	Variable elbow 15° to 60°	415-5968
W	Adj. Short tee 30° to 60°	415-6006
X	Two socket cross adj. 30° to 45°	415-6034
Y	Short tee swivel	415-6191
Z	Plastic stop end	286-3718

Note

The 'selection guide' table links the alphabetical key in the illustration to the specific fittings (a typical stock number is also quoted).

Specifications

Structural Element Type	Round Tube
Connector Type	T-Connector
Fits Strut Profile	Type 2
Fits Tube Diameter	42.4mm
Product Family	RS Handrail System
Material	Cast Iron
Product System	148
