

Product Data Sheet

RS Part number	6803861
Part Number	PWR260PUNCTUREPROOF
<u>Overview</u>	240mm Puncture Proof wheel
Manufacturer	Keystone
<u>Attributes</u>	
Load capacity	150kg
Type	Wheel only
Wheel diameter	240mm
Wheel Centre	Polypropylene
Tyre material	Puncture proof rubber
Bore size/type	20mm roller bearing
Tread Width	50mm
Hub Length	75mm

- I) Do not require reinflating when they have stood like a pneumatic tyre does
- I) No costly downtime, service or repairs
- I) Totally puncture proof
- I) Tyre life time up to 4 times that of a pneumatic equivalent
- I) Closed cell construction means it wont absorb water, freeze and then crack like some cheaper versions
- I) Shore hardness gives a shock absorbance and "ride" just like a pneumatic
