

RS MICROPUMPS: 702-6872; 702-6876; 702-6882; 702-6885; 702-6888; 702-6891

(Patents Pending, Quality Assured ISO 9001, RoHS compliant)

INTRODUCTION

The RS Micropump is a high-quality miniature pump for liquids. It is highly efficient, small and lightweight. The solid construction and wide temperature tolerance, enable it to perform reliably even in hostile environments. Your Micropump can be quickly and easily installed into the smallest spaces, in a vast range of laboratory, prototype and production equipment.

ELECTRICAL CONNECTION

CAUTION: REVERSED OR INCORRECT CONNECTION WILL PERMANENTLY DAMAGE THE ELECTRONICS IN YOUR PUMP!

Voltage: 3.0 to 12.0 Volts dc (Max 0.5 Amps)

The simplest connection is Red, Green and Grey together to +ve (Positive) supply, Black to -ve (Negative) of supply

Wire Colour	Item	Standard	Connection
Black	GND	The negative connection	Required
Grey	VM (Motor Power)	3.0~12.0VDC (Motor Speed Control) for motor	Required
Red	Vcc - Electric Circuit Supply	12VDC (3.0~12.0VDC)	Required
Green	CW/CCW (Motor Rotation)	CW: to Vcc; CCW: to GND (Connect to Positive Vcc)	Required
Yellow	RPM	GND / Vcc 4 pulse / revolution square wave signal	Optional

Your Micropump can be connected to batteries or a suitable power supply

Pumping rate can be adjusted by varying input voltages between 3.0v and 12.0v dc. Further fine tuning can be made by restricting the outlet of your pump using a fixed jet restriction or flexible tubing and an adjustable clamp. The pump is quite happy to run even with the outlet completely blocked. Pressure inside the pump will increase; yet load on the drive motor will reduce as flow is reduced.

Micropump life is increased at lower operating voltage/speed. Do not run your Micropump when dry.

TUBING

702-6872; 702-6882; 702-6885: Flexible tubing 5.0mm bore

702-6876; 702-6888; 702-6891: Flexible tubing 3.2mm bore

These micropumps are required to be filled with liquid (primed) before they can operate.

(DO NOT IMMERSIVE YOUR MICROPUMP UNLESS YOU HAVE A SUBMERSIBLE OR WATERPROOF VERSION)

MATERIALS

Housing: Anodised aluminium alloy
Tubing connectors: Stainless steel
Impeller: Polyacetal
Seals: "Viton"
