

One-Touch Pump

Description

- HDPE durAstatic™ Bottles are dissipative and are designed to protect your valuable static sensitive printed circuitry
- No migratory additives - reduces the chance for contamination from the bottle
- Embossed with ESD protective symbol, allowing people to immediately know the bottle is ESD protective
- Long lasting dissipative properties:
R_V: 1 x 10⁴ to <1 x 10¹¹ ohms tested per IEC 61340-2-3
<2 second charge decay, tested per IEC 61340-5-1:1998
- Dispenses approximately 2cc of liquid with each pump
- Genuine Menda “dish-type” liquid dispenser pumps and bottle one-handed operation dispensing small amount of liquid into top dish
- Genuine Made in the United States of America Menda pump and bottle - accept no substitutes

“It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity.” (ESD Handbook ESD TR20.20 section 2.4 Sources of Static Electricity)

Item	Description	Height*
798-9329	4 oz. (120mL) Bottle, One-Touch Pump	3.2" (81 mm)
798-9323	6 oz. (180mL) Bottle, One-Touch Pump	4.2" (107 mm)
798-9332	8 oz. (240mL) Bottle, One-Touch Pump	5" (127 mm)

***NOTE: Heights include the bottle with the dispenser pump**

6 oz.(180mL) bottles include measurements on one side to see how much fluid is left in the container

Unless otherwise noted, tolerance ± 10%
Specifications and procedures subject to change without notice.
