Fleece Filter Vacuum Bag

Fleece filter vacuum bag compatible with Electrostar Vacuum Cleaners and the Bosch GAS 25 Vacuum Cleaner.

- 2-layer filtration system with dust-class “M” approval
- Dust retention capacity >99,9%
- Optimal hold of the flange to the fleece material (compared to paper filter bags)
- Fleece filter bags have a longer life than paper filter bags
- Comparable filter volume of fleece filter bags and paper filter bags
- For compatible Electrostar Vacuum cleaners see RS [138-398](#), [138-461](#), [138-411](#), [138-455](#), [138-477](#)
- For GAS 25 Vacuum Cleaner see RS [442-8430](#), [695-7163](#), [695-7167](#)

Property	Fleece filter bags	Paper filter bags
• Working with wet dust	<i>immune</i>	<i>react with moisture</i>
• Air permeability	250 l/m ² s 3 x higher than paper	75 l/m ² s
• Solidity	<i>Inner layer</i> cross 40 N/15mm, along 60 N/15mm <i>Top layer</i> cross 150 N/15mm along 160 N/15mm 4 x stronger than paper	<i>Inner layer</i> cross 8 N/15mm, along 16N/15mm <i>Top layer</i> cross 38 N/15mm along 58 N/15mm
