Product datasheet

Cleanroom Blue Sponge Mop Head

DESCRIPTION

The Foam Mophead is manufactured from a fine-pore polyurethane foam. Designed for cleaning and disinfecting all types of controlled environments. Exceptional abrasion and tear resistance.

FEATURES AND BENEFITS

- It can be used on floors, walls and ceilings
- Complies with ROHS Directive 2002/95/EC
- Can be used in conjunction with M01 polyester cover
- Available in sterile form by Gamma Irradiation

APPLICATIONS

- Ideal for cleaning and disinfecting applications requiring high absorbency and very low particulate generation
- Perfect for cleanrooms, laboratories and any other dust/dirt free environment
- Biotechnology & Pharmaceutical industries and other non-critical environments
