

Bench mount PDU

Picture shows 6 way horizontal filtered UK bench mount PDU

- UK sockets
- Tough aluminium extrusion
- Plastic ABS legs with screw hole fixing
- Shrouded switch with switch cover
- 3-metre 1.5mm lead

The bench mount PDU is ideal for tougher working environments such as a workbench or Laboratory, the sockets are not individually fused so a power drill or heat gun etc can be safely plugged in.

The mounting brackets include fixing holes allowing the unit to be screwed securely to the work surface where required.

Flat surface mounting brackets also available.
