Ultrasonic Cleaning Tanks

3L Tank: 855-5911

6L Tank: 855-5915

High quality Ultrasonic Cleaning Tank for the cleaning and removal of dirt, grease and corrosion from both mechanical and electronic parts.

- Stainless Steel construction for strength and corrosion resistance
- Includes Degas mode for the rapid expulsion of air from the cleaning fluid for maximum effectiveness on the next cleaning cycle
- Delicate mode for a half power less aggressive clean, ideal for fragile and sensitive items
- Full power mode can be used for a powerful deep cleaning cycle for dirtier more contaminated parts
- Can be set to desired temperature and duration for a hassle free clean
- Supplied with a UK plug with a EU adaptor and full user manual
