

FEATURES

- Designed to last longer
- Resist melting if they come in contact with hot surfaces
- Remain flexible in cold environments
- Extra-heavy duty strain relief
- The strain relief is built into both the probe-end and the plug-end
- Tested beyond thirty thousand bends without failing

RS PRO Multimeter Test Lead Test Lead Kit, CAT III 1000V

RS Stock No.: 243-2998

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Multimeter Test Leads

Product Description

Replacement test leads suited to RS PRO, ISO-TECH and most other digital multimeters. Fitted with right-angled 4 mm shrouded plugs and supplied with probe tip insulators to prevent accidental short circuits. The multimeter test lead kit comes with the added benefit of a pair of crocodile clips for easy application. The probes are designed to meet BS EN 61010-1 safety standards Cat III.

General Specifications

Lead Type	Test Lead kit
Connector Type	Crocodile Clip, Right Angle Plug
Application	Test and Measurement, Test voltage, current, capacitance and other types of testing

Electrical Specifications

Current Rating	10A
Safety Category Voltage	1000V
Safety Category	CAT III 1000 V
Safety Category Level	CAT III

Mechanical Specifications

Lead Length	1.2m
--------------------	------

Approvals

Compliance/Certifications	UL
