

Model: 15509 PortaGrip with Telescoping Windshield Mount

Perfect for vehicles with deep dashboards

The PortaGrip Universal Phone Holder with Telescoping Suction Cup Mount securely holds your mobile phone while you drive.

Designed for today's smartphones with large touchscreens, thin bezels and various button and charging port configurations, the new PanaVise PortaGrip is the latest product in the 20+ years history of PanaVise phone holders under the PortaGrip name.

Paired with PanaVise's industry leading suction cup technology, the new PortaGrip provides a secure in-vehicle mounting solution for your phone. It attaches firmly to the vehicle windshield and stays mounted in hot or cold.

- Side arms adjust from 2.25" to 3.75" in width to fit nearly any phone (including the most popular handsets; iPhone 5s, iPhone 6, Samsung Galaxy S Series, Motorola, HTC, LG as well as larger phones such as iPhone 6 Plus and Samsung Galaxy Note 4)
- Once the arm width is set, phone is easily removed by rocking it to the side with a one-handed motion
- Rubberized indexed grippers and foam backed cradle won't scratch your device
- Vertical low profile grips allow full access to touch screens
- Quick release button for easy phone access
- Ratcheted feet allow for access to data ports
- PanaVise Tilt, Turn & Rotate = fully adjustable
- Low profile design minimizes mount behind phone
- Premium suction cup mount: includes industry-leading PanaVise 709B Suction Cup Mount
- Premium, telescoping suction cup mount with industry-leading PanaVise suction cup technology
- Specifically designed for extra reach! Length can be adjusted after installation.
- Telescoping arm extends up to 18". Perfect for vehicles with deep dashboards such as trucks and vans.
- Mount should be installed at the base of windshield with the shaft resting on dashboard to support against excessive leverage.
- Powerful suction cup mounts to vehicle windshield. Easily move from vehicle to vehicle or stow for security
