## RS Pro 24V, 5A Lead Acid Battery Charger, UK Plug

RS Stock No: **549-316**

### Product Details

RS Pro lead acid battery charger is a high quality range of automatic charger with 3 stage controls. The charger yields 24 V output voltage at 5 A charge current. The UK plug type charger has a charging current(s) of 2 to 25 A with many models provided in aluminium impact resistant casing and supplied with UK and EU mains leads and crocodile clip connectors. The battery charger meets RoHS and CE directive standards.

### Features and Benefits

- 3 stage control (fast/normal/float)
- Full charge with automatic shutdown
- Short circuit output protected
- Most models with 115/230 V input range
- Reverse polarity protected
- Overload protected
- UK/EU plugs
- LED indicator included
- Compliant to safety standards
- RoHS and CE directive compliant

ENGLISH

### Specifications:

Battery Type Charged	Lead Acid
Number of Charge Stages	3
Plug Type	UK
Standards Met	CE Certified; RoHS Compliant
User Interface	Indicator LEDs
Charge Current	5 A
Dimensions	186 x 88 x 47.5 mm
Input Voltage	115/230 V ac
Output Voltage	24 V
Output Voltage @ Charge Current	24 V at 5 A
Weight	0.8 kg
