## Solenoid valve VMPA2-M1BH-M-PI Part number: 8022034

## **Data sheet**

| Feature                                 | Value                                                                                             |
|-----------------------------------------|---------------------------------------------------------------------------------------------------|
| Valve function                          | 5/2 monostable                                                                                    |
| Type of actuation                       | electrical                                                                                        |
| Valve size                              | 20 mm                                                                                             |
| Standard nominal flow rate              | 900 l/min                                                                                         |
| Working pressure                        | -0.9 10 bar                                                                                       |
| Design structure                        | Piston slide                                                                                      |
| Type of reset                           | Air spring                                                                                        |
| Protection class                        | IP65                                                                                              |
|                                         | to IEC 60529                                                                                      |
| Authorization                           | c UL us - Recognized (OL)                                                                         |
| Sealing principle                       | soft                                                                                              |
| Assembly position                       | Any                                                                                               |
| Manual override                         | detenting                                                                                         |
|                                         | Pushing                                                                                           |
| Type of piloting                        | Piloted                                                                                           |
| Flow direction                          | reversible                                                                                        |
| Freedom from overlap                    | Yes                                                                                               |
| Signal status display                   | Yes                                                                                               |
| Pilot pressure                          | 3 8 bar                                                                                           |
| Suitability for vacuum                  | Yes                                                                                               |
| Standard nominal flow with QS-10        | 870 l/min                                                                                         |
| Switching time off                      | 28 ms                                                                                             |
| Switching time on                       | 15 ms                                                                                             |
| Max. positive test pulse with logic 0   | 400 µs                                                                                            |
| Max. negative test pulse with logic 1   | 900 µs                                                                                            |
| Permissible voltage fluctuation         | +/- 25 %                                                                                          |
| Operating medium                        | Compressed air in accordance with ISO8573-1:2010 [7:4:4]                                          |
| Note on operating and pilot medium      | Lubricated operation possible (subsequently required for further operation)                       |
| Vibration resistance                    | Transport application test at severity level 2 in accordance with FN<br>942017-4 and EN 60068-2-6 |
| Shock resistance                        | Shock test with severity level 2 in accordance with FN 942017-5<br>and EN 60068-2-27              |
| Corrosion resistance classification CRC | 1 - Low corrosion stress                                                                          |
| Storage temperature                     | -20 40 °C                                                                                         |
| Medium temperature                      | -5 50 °C                                                                                          |
| Relative air humidity                   | Max. 90% at 40°C                                                                                  |
| Ambient temperature                     | -5 50 °C                                                                                          |
| Max. tightening torque, valve mounting  | 0.65 Nm                                                                                           |
| Product weight                          | 100 g                                                                                             |
| Mounting type                           | with through hole                                                                                 |
| Materials note                          | Conforms to RoHS                                                                                  |
| Material seals                          | NBR                                                                                               |
| Material housing                        | Aluminum die cast                                                                                 |
