Proportional directional control valve MPYE-5-1/8-HF-010-B Part number: 151693

Data sheet

Valve function 5/3 closed Polarity protected for all electrical connections Working pressure 0 10 bar b value 0.26 C value 3.1 l/sbar Standard nominal flow rate 700 l/min Limit frequency 95 Hz Max. hysteresis 0.4 % Operating voltage range DC 17 30 V Residual ripple 5 % SETPOINT/ACTUAL values Voltage type 0 - 10 V Operating medium Compressed air in accordance with ISO8573-1:2010 [6:4:4] Note on operating and pilot medium Lubricated operation not possible CE symbol (see declaration of conformity) according to EU-EMV guideline Corrosion resistance classification CRC 2 - Moderate corrosion stress Medium temperature 5 40 °C Protection class IP65 Ambient temperature 0 50 °C Authorization RCM Mark Product weight 285 g Electrical connection Plug Round design Mi12x1 4-pin With through hole <	Feature	Value
Sealing principle Assembly position Any Design structure Piston slide Type of reset Agentic spring Safety instructions MPYEs afsety position: If the power supply cable is interrupted, travel occurs to the closed mid-position If the power supply cable is interrupted, travel occurs to the closed mid-position If the power supply cable is interrupted, travel occurs to the closed mid-position If the power supply cable is interrupted, travel occurs to the closed mid-position If it all electrical connections If it all electrical connection, port 1 If it all electrical connection, port 5 If it all electrical connection, port 5 If it all electrical connection, port 5 If it all electrical connection is all electrical connection is all electrical connection, port 5 If it all electrical connection is all electrical connection, port 5 If it is all electrical connection is all electrical connection is all electrical connection is all electrical connection, port 5 If it is all electrical connection is all electrical electrical connection is all electrical ele	Nominal size	6 mm
Assembly position Design structure Piston slide Type of reset Magnetic spring Safety instructions MPYE safety position: If the power supply cable is interrupted, travel occurs to the closed mid-position Type of piloting direct Type of piloting Description Type of position Type of piloting Description Type of position Type of piloting Type of pi	Type of actuation	
Assembly position Design structure Piston slide Type of reset Magnetic spring Safety instructions MPYE safety position: If the power supply cable is interrupted, travel occurs to the closed mid-position Type of piloting direct Type of piloting Description Type of position Type of piloting Description Type of position Type of piloting Type of pi	Sealing principle	Hard
Design structure Type of reset Magnetic spring Safety instructions MPYE safety position: If the power supply cable is interrupted, travel occurs to the closed mid-position Type of piloting Girect How direction Type of piloting Girect How direction S/3 closed Polarity protected Flow direction S/3 closed Polarity protected For all electrical connections Working pressure O 10 bar Value function O.26 C value Standard nominal flow rate Type of piloting Type of the power supply objection of the power of the piloting Type of the type of the piloting Type of all electrical connection Type of piloting Type of the type of the piloting Type of t		Any
Type of reset Safety instruction MPYE safety position: If the power supply cable is interrupted, travel occurs to the closed mid-position Type of piloting direct Flow direction Non reversible Valve function S/3 closed Polarity protected for all electrical connections Working pressure 0 10 bar 0 .26 C value 0 .26 C value 3 .1 l/sbar Standard nominal flow rate Type of piloting Max. hysteresis 0 .4 % Operating voltage range DC 17 30 V Residual ripple SEPOINT/ACTUAL values Voltage type 0 - 10 V Operating medium Ce symbol (see declaration of conformity) according to EU-ENV guideline CE symbol (see declaration of CRC Ambient temperature Protection class Ambient temperature 10 50 °C Authorization RCM Mark Product weight Electrical connection, port 1 Pneumatic connection, port 2 Pneumatic connection, port 5 Gl/8 Pneumatic connection, port 5 Gl/8 Pneumatic connection, port 5 Gl/8 Material soals Material lousing Material lousing Material lousing
