## ST Field Installable Connectors

ST field installable connectors (FIC) are factory terminated and polished to make fiber terminations fast, easy and reliable. These fiber optic connectors offer terminations in less than 2 minutes without any difficulty and require no epoxy, polishing or crimping. The FIC greatly reduces the installation and set up time. It has a window feature to allow testing with a visual fault locator.

- 
- Polished connector incorporating a mechanical splice
    - Available in single mode and multimode (50/125 and 62.5/125)
  - Durable, reliable and superior optical performance
  - Compatible with standard ST adapters
  - Termination can be repeated 2-3 times
  - Packaging comes with a buffer stripping template
  - Complies with IEC, EIA/TIA or Telecordia standards
  - Rapid repair of optical networks
  - FTTH end user termination
  - Hazardous environment termination where fusion splicing is prohibited

	Single mode and Multimode
Fiber Type	0.5 dB
Insertion Loss (Max)*	0.3 dB
Insertion Loss (Typical)*	50db/55dB
Return Loss (Typical)*	UPC and APC
Polishing Type	

\*Using proper cleave process
