| Type                                   | BL20-2AO-I(4...20MA)                                      |
| ID                                     | 6827034   |
| <b>Number of channels</b>              | 2   |
| Rated voltage from the supply terminal | 24 VDC  |
| Nominal current from field supply      | ≤ 50 mA   |
| Nominal current from module bus        | ≤ 40 mA   |
| Power dissipation, typical             | ≤ 1 W   |
| <b>Output connectivity</b>             | Screw, tension spring                                     |
| <b>Outputs</b>                         |   |
| Output type                            | 0/4...20 mA   |
| Load resistance, resistive             | < 0.45 kΩ   |
| Load resistance, inductive             | < 1 mH  |
| Electrical isolation                   | electronics for the field level                           |
| <b>Basic fault limit at 23 °C</b>      | < 0.2 %   |
| Repeatability                          | 0.05 %  |
| Temperature coefficient                | < 150 ppm/°C of full scale                                |
| Resolution                             | 16 Bit  |
| Measured-value display                 | 16 bit signed integer<br>12 bit full range left-justified |
| Cycle time                             | ≤ 10 ms   |
| <b>Number of parameter bytes</b>       | 6   |
| <b>Dimensions (W x L x H)</b>          | 12.6 x 74.1 x 55.4 mm                                     |
| Approvals                              | CE, cULus, zone 2, Class I, Div. 2                        |
| Ambient temperature                    | 0...+55 °C  |
| Storage temperature                    | -25...+85 °C  |
| Relative humidity                      | 15...95 %, no condensation allowed                        |
| Vibration test                         | Acc. to EN 61131  |
| Shock test                             | Acc. to IEC 60068-2-27                                    |
| Drop and topple                        | acc. to IEC 68-2-31 and free fall to IEC 68-2-32          |
| Electromagnetic compatibility          | Acc. to EN 50082-2  |
| Protection class                       | IP20  |
| MTTF                                   | 712 years acc. to SN 29500 (Ed. 99) 20 °C                 |

- Fieldbus and connection technology independent
- Protection class IP20
- LEDs indicate status and diagnostic
- Electronics galvanically separated from the field level via optocouplers
- 2 analog outputs 0/4...20 mA

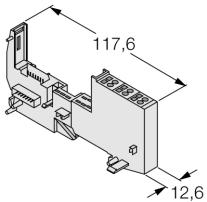

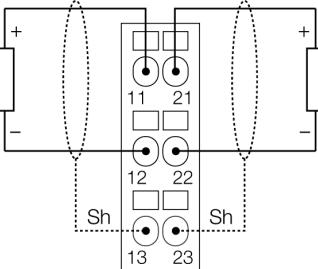

#### Functional principle

BL20 electronic modules are plugged into the purely passive base modules which are used for connection of field devices. Maintenance is significantly facilitated due to separation of the connection level from the module electronics. Furthermore flexibility is enhanced because the base modules provide a choice of tension spring or screw connection technology.

The electronic modules are completely independent of the type of higher level field bus through the use of gateways.
