

5500 series manifold

5500-MAN-EX01-24VDC

- Suitable for Zone 2/22
- ATEX & IECEx certifications
- Manifold combines the solenoid valve for purging and needle valve for pressurization in one housing
- Suitable for steel or plastic tubing
- Mounting hardware, pneumatic fittings and tubing included

5500 series manifold, ATEX/IECEx certified, 24 V DC

Function

The 5500-MAN-EX01-* combines a solenoid valve for purging and a needle valve for pressurization in one manifold design. When the valve is energized, the solenoid valve is open and allows for a high flow rate of protective gas into the enclosure. When the valve is deenergized, the flow through the internal needle valve is adjustable by a flathead screw driver through the needle stem on the manifold. The solenoid valve is used for purging, leakage compensation, and temperature control by signals from user defined points on the 5500 control unit.

Mounting hardware includes 3/8" tube compression fittings mounted on the manifold for input and output flow, 3/8" tube compression bulkhead fitting for getting flow into the enclosure and certified sealing washers with bolts to mount the manifold to the enclosure. Also included is 1 meter of 3/8" poly tubing with 3/8" poly tube stiffener inserts which allows the connection of plastic tubing to compression fittings without collapsing the tubing.

The 5500-MAN-EX-01-* is certified for Zone applications. For NEC, Class/ Division applications see the model number key for proper manifold selection.

The 5500 valve system works with the 5500 control unit and EPV-5500 vents.
The 5500 system has ATEX and IECEx certification for Zone 2&22 installation.

Dimensions

Technical Data

General specifications

Operating mode	automatic purging
Series	5500
Hazardous environment	gas or dust

Supply

Rated power	24 V DC: 5.6 W Voltage tolerance: +/- 10 %
-------------	---

Electrical specifications

Fuse rating	DC: 500 mA AC: 80 mA (fuse rating on 5500 control unit)
-------------	---

Pneumatic parameters

Protective gas supply	instrument grade air or inert gas
Pressure requirement	1.7 bar (25 psi) to 8.0 bar (115 psi)
Purge flow rate	solenoid valves : Cv (flow coefficient) = 1.4 needle valve : Cv (flow coefficient) = 0.24

Ambient conditions

Ambient temperature	-20 ... 50 °C (-4 ... 122 °F)
---------------------	-------------------------------

Mechanical specifications

Connection type	Pneumatic Input port: 3/8 inch Tube compression fitting Output port: 3/8" Tube compression fitting
-----------------	--

Degree of protection	type 7 & 9
----------------------	------------
