

Standard optical

Sendix 5000 / 5020 (shaft / hollow shaft)

Push-Pull / RS422 / Open collector

Due to their sturdy bearing construction in Safety-Lock™ Design, the Sendix 5000 and 5020 offer high resistance against vibration and installation errors.

The rugged housing, high protection level of up to IP67, as well as the wide temperature range of -40 °C up to +85 °C, make this product range the perfect encoder for all applications.

24one delivery promise.

protection

Robust performance

- · Increased resistance against shock, vibrations and tolerance of installation errors, elimination of machine downtime and repairs thanks to sturdy bearing construction in "Safety-LockTM Design".
- · Ensures highest safety against field breakdowns and is thus suitable also for outside use thanks to its resistant die-cast housing and protection up to IP67.
- · Undetachable clamping ring on hollow shaft encoders.
- Wide temperature range, -40 °C ... +85 °C.

Many variants

- · Suitable connection variant for every specific case: cable connection with different standard lengths, M12 (5- or 8-pin), M23 (12-pin), MIL (7- or 10-pin) and Sub-D connector. In addition: Variants with connector fitted in the cable – for error-free electrical connection to your control.
- Reliable mounting in a wide variety of installation situations: comprehensive and proven fixing possibilities.
- · Compatible with all US and European standards.
- Wide range of standard pulse ranges up to max. 5000 pulses per revolution.

04	Z gated with A & B. Z is 90° wide.	z
05	Z gated with B. Z is 180° wide.	z
06	Z gated with A. Z is 180° wide.	Z
07	Z ungated. Z is 330° to 360° wide.	z
09	Z gated with \overline{B} . Z is 180° wide.	Z
10	Z is a negative marker gated with B. Z is 180° wide.	z
12	Z has a minimum width of 270°.	z

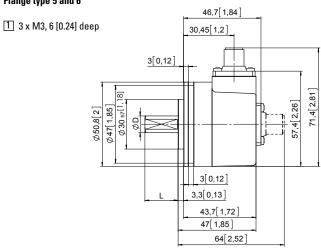

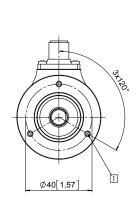

Standard optical Sendix 5000 / 5020 (shaft / hollow shaft) Push-pull / RS422 / Open collector

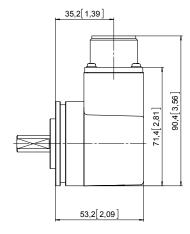

Dimensions shaft version

Dimensions in mm [inch]
